

Captain Moe Khawaja

LEADERS IN FLIGHT SIMULATION, TRAINING, BROKERAGE ADVISORY SERVICES

The mission of Global Aviation Services (GAS) is to provide the aviation community with expert Aviation Consulting, state-of-the-art Flight Simulation Equipment, professional Pilot Training Services, and Business-commercial Jet Brokerage services.

We are a proven, reliable aerospace company, with well-established industry partnerships. We offer our clients affordable and superior aviation consulting services, high-fidelity flight simulation products, and professional pilot training services, utilizing cutting-edge technologies, researchers, engineers, and facilities, managed by a team of highly competent and experienced personnel. We have a global marketing presence, servicing the entire aviation community. GLOBAL plays a pivotal role in making the aviation environment a much safer and efficient place.

GLOBAL Aviation is spearheaded by Capt. Mo Khwaja, an accomplished airline captain, and graduate of Embry-Riddle Aeronautical University, who is the CEO and Global operations director. He brings more than 35 years of solid aviation experience to the company. Faris Syed heads the strategic growth and vision of the company as the President of Global Mergers and Acquisitions, and Global Aviation. He is also the founder, President & CEO of Simflightronics International, offering aviation consulting, simulator manufacturing, and aviation training services. He has extensive hands-on experience in the areas of Aviation Management, Business Development, Consulting, Simulation and Training, Flight Operations, Regulatory Compliance, Aviation Safety, and related services. He is also a seasoned airline pilot, instructor, simulation, and training expert, with over 35 years of professional aviation experience. He has an MBA in Aviation, and a BS in Aviation Management, from Embry-Riddle Aeronautical University. He holds an FAA Airline Transport Pilot (ATP) Certificate, and Advanced Flight and Ground Instructor Certificates.
